

# WHAT'S NEW ON DARTFISH.TV? DECEMBER '09 RELEASE

Expand your use with embedded playlists and experience easier navigation through all dartfish.tv content! Read on to learn how.

## **USE DARTFISH.TV TO PLAY VIDEOS ON YOUR WEBSITE**

Channel owners can now **specify the web domains where content is embedded and viewed**, an extension to the video Smart Playlist feature introduced earlier this year.

Organise and annotate your video content on dartfish.tv. Create Smart Playlists with keyword filters and display the videos on your website. **Dartfish.tv becomes a true extension of your own website.**

Play videos on your website and authorise access to them.

## **EASIER AND FASTER ACCESS TO CONTENT**

Enjoy **smooth browsing through videos and collections**, thanks to interface improvements.

Your featured video remains prominent on your channel homepage but **new instant search tools** mean faster access to other videos. Click on the "collections" thumbnail to see all collection details at a glance.

With **the use of filters**, you can browse through collections and videos, and get content, easier and faster than ever before!

## **DO YOU PREFER A VISUAL DESCRIPTION ?**

Then **[follow our online video tutorials](#)** that take you through all these new features step-by-step.
