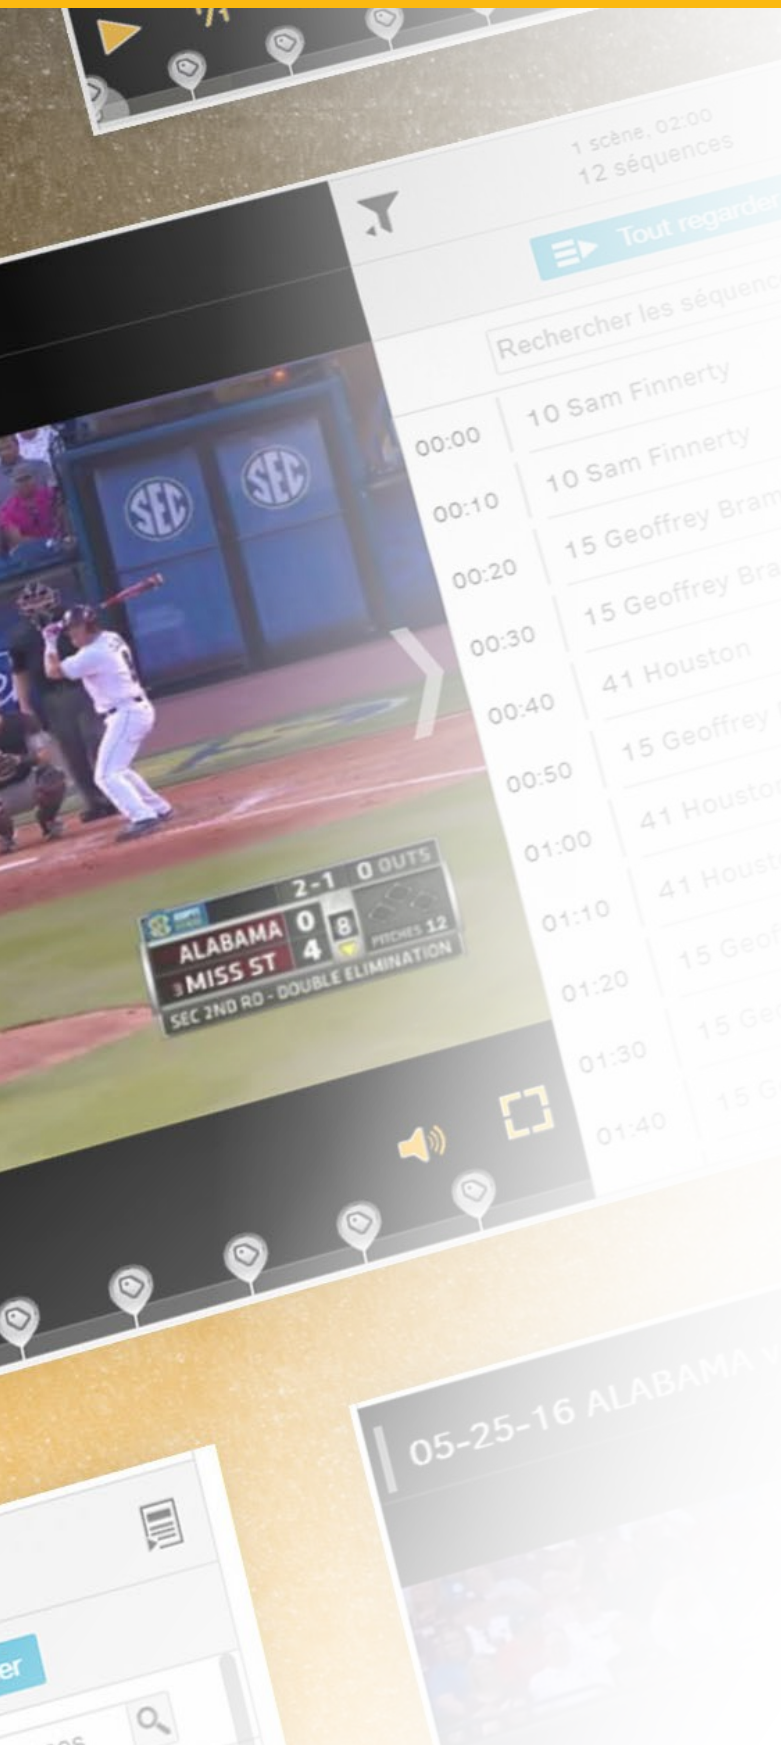
Clubhouse

Become part of an exclusive Community. Explore the knowledge base, Watch our tutorials and discuss with experts and coaches.

Developing Winning programs.



Player Development

Our toolset assists coaches in assessing their pitchers' and hitters' strengths, weaknesses and tendencies from game results, allowing them to develop specific practice plans for each player.

Scouting-Game Planning

Analyze opponent's pitchers and hitters tendencies through unique visual data reports

For pitchers, the reports identify pitch type patterns in counts, for hitters the reports identify swing patterns and results on pitch type and locations.

Our new defensive alignment tools identify hit location patterns based on pitch type and location. Quickly transform all this information into your game plans.

Recruiting

Video has become a necessary tool to evaluate talent. Specific athletes that you are targeting expect these type of tools to develop their skills.

Our toolset also provides a method to organize all recruits video allowing coaches to share and collaborate making the best decisions for their program.

DATA
VIDEO

CAPTURE VIDEO

- Put the camera on a tripod, and let it capture the desired view.
- Use video streamed games.

SHARING AND PRESENTING

- Export your charted data to your Dartfish cloud service where graphical player reports and videos are available to coaching staff and to players.

CHART GAMES OR PRACTICE

- Uses Dartfish Smart Lineups Technology
- Tag in Live / Post and in Replay

ANALYZE PLAYER ANALYTIC REPORTS AND VIDEOS

- Quickly create video playlists based on performance reports.
- Improve your efficiency of remote teaching players.
